

Certificate

KuRo Kunststoffe GmbH

has actively participated in the GLS KlimaProtect program in the period from January 2020 to December 2020, thus processing parcel shipment with General Logistics Systems Germany GmbH & Co. OHG climate-neutral.

The carbon emissions caused by parcel transport are offset through investments into an externally certified forest protection and reforestation project (VCS/CCB standard).

In addition, GLS Germany consistently invests in the further reduction and avoidance of CO₂ emissions as part of GLS KlimaProtect.

A handwritten signature in blue ink, appearing to read 'Karl Pfaff', is written in a cursive style.

Dr. Karl Pfaff

Chairman of the Management Board
General Logistics Systems Germany GmbH & Co. OHG

Neuenstein, March 2021

This certificate is issued by General Logistics Systems Germany GmbH & Co. OHG.

The calculation of carbon emissions per parcel is carried out in accordance with DIN EN 16258:2012 (method of calculation and declaration of energy consumption and greenhouse gas emissions in transport services – freight and passenger transport –).
